# Audit Findings

## Audit Narrative

*The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.*

On 10-25-2017, PREA America LLC was given an award letter to conduct the PREA audit for the Vacca Campus of the Alabama Department of Youth Services. 11-14-2017 notices were posted around the facility announcing the audit and providing a confidential method for staff and residents to contact the auditor. The Pre-Audit Questionnaire and supporting documentation were delivered to the audit team on 12-19-2017.

The on-site audit was 01-26-2018, beginning at 7:30 am. The audit team started by interviewing overnight staff, so they could leave for the day. Then the Campus Administrator, Angie Toney, welcomed the audit team and hosted an introductory meeting. In addition to Ms. Toney and the audit team, the meeting was also attended by Treatment Coordinator Fatima Johnson, PREA Compliance Manager Donna Fairman, DYS Licensing Director Robert Matthews, and DYS PREA Coordinator Bobby Latham. After the meeting the team was provided with a facility tour, and interviews commenced. 15 residents were randomly selected from each living area and interviewed. The facility did not identify youth for targeted interviews, but efforts were made to randomly select residents from different age and ethnic groups. 12 facility staff (5 random and 7 specialized) were interviewed, including staff from every shift, in addition to 5 DYS agency administrators. This includes lengthy and very informative interviews with Deputy Director of Institutional Services Marsha Calendar and the General Counsel Dudley Perry, Jr.

At the end of the on-site audit, an exit conference was held and attended by the audit team, Administrator Toney, Director Matthews, PREA Coordinator Latham and PREA Compliance Manager Fairman. There was a productive discussion during the exit conference in which the audit team updated everyone about the progress so far and expressed sincere appreciation for the excellent way the agency and facility accommodated the audit process. Every participant discussed what they had learned during the audit process and some of the ongoing changes and challenges. The agency is implementing Performance-Based Standards (PBS), which is taking up some time but is expected to transform their delivery of quality services for the better. The audit team discussed the areas of strength identified during interviews. Clearly there is a quality PREA training and education program in place for youth and staff, which covers most required topics quite well. Youth say very positive things about their school and their teachers. The youth expressed little doubt that the Vacca Campus is following PREA. Since the facility and agency do not get many allegations, an intense effort was employed during the audit to test all the reporting methods and numbers to assure they are working. The crisis line number was updated from the hospital switchboard to the 24-hour Crisis Center number where trained advocates answer the phone 24 hours per day. The facility and agency staff showed transparency regarding their efforts to improve their system in various ways over time, repeatedly emphasizing a desire to keep residents and staff safe while the facility provides the care they are charged to provide in a way that works to improve the lives of the people of Alabama as reformed youth become productive citizens.

Documents reviewed as part of this audit include the following: Pre-Audit Questionnaire; Vacca Campus Population Report 1st, 10th, 20th day of each month for 12 months; DYS Mission and Goals; PREA Juvenile Justice Standards Standard Compliance Checklist with Pre-Audit Questionnaire References (listing protocols and process indicators for each standard); 2014 Memo from J. ## Facility Characteristics

*The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.*

The Vacca Campus is multi-building facility. The entrance to the campus has a security control office with gate control for road and foot traffic. The first building is administration, which is two stories and has numerous offices. The next building on the left is the Chapel. Further down the mostly rectangular road on the right are two more buildings: one is the school; the other, a gym. Soon after the road turns, there are two more buildings: one is used for staff offices; another has large rooms for groups and meetings. The inside of the rectangle is a large field, which can be used for recreation and sports.

The four housing units, two of which are triangular shape, are on the far side of the rectangle. Rooms for the youth are supervised from staff control areas. There are day areas and appropriately placed cameras for surveillance.

According to the agency website, "The Vacca Campus is a multifaceted secure juvenile correctional institution serving male youth ages thirteen to eighteen. The youth are adjudicated juvenile offenders who are court-committed to DYS. Services include an educational program, substance abuse education and treatment, medical and mental health services, individual and group counseling, physical education, and other basic services important to positive youth development. Each youth is assigned a case manager and works with that counselor toward addressing factors related to committing offenses, developing life skills, and earning release by completing an Individualized Service Plan (ISP) developed by a multidisciplinary team.

Substance abuse and chemical dependency treatment is provided by the educational component of the University of Alabama at Birmingham (UAB) Substance Abuse Program or the more intensive Chemical Addiction Program (CAP). Additional group counseling includes topics ranging from social skills to release and aftercare preparations.

The programs and services offered by Vacca Campus are designed to provide the opportunity for juveniles to return to their communities and function as lawful and productive citizens. Continuing in the footsteps of the facility's founder [Mrs. R. D. Johnston who witnessed young delinquent boys working in prison mining camps], the goal remains to guide the students into a better way of life."

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Vacca Campus develops, documents, and makes its best efforts to comply on a regular basis with, a staffing plan that provides for adequate levels of staffing and video monitoring, to protect residents against abuse. Each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan; however, there have been no deviations. At least once every year, the agency reviews the staffing plan, considering all relevant factors, to see whether adjustments are needed to the staffing plan: in prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency resources to commit to the staffing plan to ensure compliance with the staffing plan. The facility requires that intermediate-level or higher-level staff conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. There is a policy to prohibit staff from alerting other staff members that these rounds are occurring, unless such announcement is related to the operational functions of the facility. In calculating adequate staffing levels and determining the need for video monitoring, the facility considers: (1) Generally accepted juvenile detention and correctional/secure residential practices; (2) Any judicial findings of inadequacy; (3) Any findings of inadequacy from Federal investigative agencies; (4) Any findings of inadequacy from internal or external oversight bodies; (5) All components of the facility's physical plant (including "blind spots" or areas where staff or residents may be isolated); (6) The composition of the resident population; (7) The number and placement of supervisory staff; (8) Institution programs occurring on a particular shift; (9) Any applicable State or local laws, regulations, or standards; (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and (11) Any other relevant factors. This PREA Standard requires staff-to-resident ratios of 1-to-8 during waking hours and 1-to-16 during sleeping hours. Exceeding this standard, Vacca Campus maintains a ratio of 1-to-12 during sleeping hours and requires at least one male staff. The audit team reviewed staffing plans, reviews, and annual vulnerability assessments supporting compliance with this standard. Real changes come from these reviews to enhance safety and staff coverage, such as is currently underway updating cameras and

technology. In addition, the agency has a major push underway to implement Performance Based Standards (PBS) to increase effectiveness.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Vacca Campus does not conduct any kind of cross-gender searches of residents except in exigent circumstances (which are fully documented and justified) or when performed by medical practitioners. According to interviews and documentation provided, no cross-gender searches have been conducted in the past year. Residents shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Exceeding the standard, Vacca Campus has a standing policy for staff to never supervise youth of the opposite sex alone. Staff are instructed to review the shift assignment when they arrive to work to make sure staff of the same sex as the youth are scheduled. Also exceeding this standard, staff are required to report violations of this policy. Staff of the opposite gender announce their presence when entering a resident housing unit. Staff are forbidden from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. The agency has trained security staff in how to conduct cross-gender pat-down searches in exigent circumstances, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. No interviews with residents indicated any worries about any part of this standard being violated.

Residents consistently stated they are not searched, or supervised in showers or when on toilet, by opposite gender staff. They said searches are always by a staff of the same sex and are done appropriately.

The agency has established procedures to provide disabled residents, and residents with limited English proficiency, equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Agency policy prohibits use of resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under § 115.364, or the investigation of the resident's allegations. In the past 12 months, there have been no instances where resident interpreters, readers or other types of resident assistants have been used. It was not the case that an extended delay in obtaining another interpreter could compromise the resident's safety, the performance of first-response duties under § 115.364, or the investigation of the resident's allegations. Staff and residents generally indicate the agency will go the extra mile to assist anyone to understand what they need to understand in order to be safe and exercise their rights.

This discussion must also include corrective action recommendations where the facility does not meet the standard. Agency policy prohibits hiring or promoting anyone who may have contact with residents, and prohibits enlisting the services of any contractor who may have contact with residents, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described above. The agency asks each applicant whether they have been administratively adjudicated of any conduct described above. Agency policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Files reviewed by the auditor, and interviews with administrators, indicate the agency conducts criminal background record checks, consults the Child Abuse Registry; and, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. It appears all contractors and volunteers have also had these checks done as required. Criminal background checks of employees and contractors are completed at least every five years. In addition, agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. The agency provides,

whenever legally possible, information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work.

The agency/facility is responsible for conducting administrative sexual abuse investigations (including resident-on-resident sexual abuse or staff sexual misconduct). Law enforcement will conduct criminal investigations. When conducting a sexual abuse investigation, the investigators follow a uniform evidence protocol that is developmentally appropriate for youth, adapted from the most recent edition of the DOJ's Office on Violence Against Women publication, A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents. The facility offers all residents who experience sexual abuse access to forensic medical examinations, without cost. Where possible, examinations are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). When SANEs or SAFEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SANEs or SAFEs. During the past 12 months there were no forensic medical exams conducted or indicated. The facility attempts to make a victim advocate from a rape crisis center available to the victim, in person or by other means, and these attempts are documented. If and when a rape crisis center is not available to provide victim advocate services, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member.

Vacca Campus residents receive information at time of intake about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or sexual harassment. This information is provided in an age-appropriate fashion. All current residents have been trained on PREA, according to documentation provided to the auditor and interviews conducted. All transfers are treated as admissions, so these residents get the same PREA training. The agency maintains documentation of resident participation in PREA education sessions, and the auditor reviewed a sample of this documentation, as well as the resident training curriculum and handouts. The agency ensures that key information about the agency's PREA policies is continuously and readily available or visible through posters, resident handbooks, or other written formats. The agency provides resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills. Information received during the pre-audit process, as well as during the on-site audit, including interviews with staff and residents indicates the residents understand the zero-tolerance policy and various ways to report.

AYS has a policy related to the training of medical and mental health practitioners who work regularly in its facilities. All medical and mental health care practitioners who work regularly at this facility have received the training, but they do not conduct forensic exams, but would assist law enforcement if requested. The training teaches how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to juvenile victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment. This was verified by a review of training documentation, policy and interviews.

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Vacca Campus conducts screening, within 24 hours of admission, for risk of sexual victimization or sexual abusiveness toward other residents, using an objective screening instrument. Policy also requires that every resident's risk level be reassessed. Periodic reassessments are also conducted if additional risk factors come to light. This risk information is gleaned through conversations with the resident and during medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's file. The screening and reassessment attempts to ascertain information about: (1) Prior sexual victimization or abusiveness; (2) Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse; (3) Current charges and offense history; (4) Age; (5) Level of emotional and cognitive development; (6) Physical size and stature; (7) Mental illness or mental disabilities; (8) Intellectual or developmental disabilities; (9) Physical disabilities; (10) The resident's own perception of vulnerability; and (11) Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents. Appropriate controls are placed on the dissemination of this information to lower the chances of it being used inappropriately. The audit team reviewed the screening tool and documentation of a number of completed screenings, as well as interviewing the screeners and reviewing the whole screening process. Also, the auditor asked the youth about whether they had been screened and whether they believe the staff are discrete with the information. It appears the screenings are being completed appropriately and followed up on as needed.

### Auditor Overall Compliance Determination

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Vacca Campus uses information from the risk screening required by §115.341 to inform housing, bed, work, education, and program assignments, and it has a policy that residents at risk of sexual victimization may only be placed in isolation as a last resort if less restrictive measures are inadequate to keep them and other residents safe, and only until an alternative means of keeping all residents safe can be arranged. Policy requires that residents at risk of sexual victimization who are placed in isolation have access to legally required educational programming, special education services, and daily large-muscle exercise. Residents in isolation receive daily visits from a medical or mental health clinician and receive access to other programming to the extent possible. In the past 12 months no residents at risk of sexual victimization were placed in isolation for their protection. Isolation (called “time-out” at Vacca Campus) is only to be used as a last resort, and only until an alternative means of keeping all the residents safe can be arranged. Policy prohibits placing lesbian, gay, bisexual, transgender, or intersex residents in particular housing, bed, or other assignments solely on the basis of such identification or status. The facility also prohibits considering lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. The agency makes housing and program assignments for transgender or intersex residents in the facility on a case-by-case basis, and their own views are given serious consideration, and these assignments are reconsidered at least twice every year to review any threats to safety.

## Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Procedures have been established allowing for multiple internal ways for residents to report privately to agency officials about sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The DYS Sexual Assault 24 Hour Hotline is provided, which is 1-855-332-1594. The agency provides a way for residents to report abuse or harassment to an entity that is not part of the agency. They are given contact information and phone numbers to the Children's Hospital Intervention and Prevention Services (CHIPS) (205-638-9100) and to Alabama Disabilities Advocacy Program (ADAP) (800-826-1675)- as well as for the Crisis Center - 24-Hour Hotline: 205-323-7777. The auditor spoke to a volunteer operator Brook at the Crisis Center who was very knowledgeable about the services in the area. If a youth from Vacca Campus would call her, she would be able to visit about the issues and develop a plan of action based on the youth's stated concerns. They are mandated reporters, so information about abuse and neglect will be reported to CPS, the they will encourage the caller to also make that call or to call the Rape Response Center (205-323-7273) to set up the services or intervention needed. In turn the Rape Response Center may facilitate a forensic exam that might be conducted at the Crisis Center or the Rape Response Center. Follow up counseling may occur at the Crisis Center as well. The auditor also spoke with PREA Advocate Tiffany Twilley at the Rape Response Center who takes these calls. All services will be provided, with advocacy SANE or SAFE as required, as well as prosecution and follow up services as appropriate. Services are tailored to the age and needs of the victim. For juveniles detained solely for Civil Immigration purposes, they may contact the Alabama Department of Homeland Security at 1-334-353-3050. Residents interviewed by the auditor knew they can report to any staff in writing or verbally, and they can report by calling the phone numbers they have been given and that they have seen posted around the facility. They knew they can have someone on the outside, such as a family member or friend, make the report on their behalf by calling the same number. Staff interviews indicate they are aware they are to accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to document verbal reports by the end of their shift. The facility provides residents with access to tools to make written reports. The agency has established procedures for staff to privately report sexual abuse and sexual harassment of residents. This is taught during new worker training, and it is in the employee handbook, as well as in annual trainings. Neither residents nor staff report a fear of retaliation for making reports about anything that happens at Vacca Campus.

- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)  Yes  No  NA

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

The facility has an administrative procedure for dealing with resident grievances regarding sexual abuse. The facility policy allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. There is no time limit for a resident to submit a grievance regarding an allegation of sexual abuse, and the resident is not required to use an informal grievance process, or otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. The facility's policy allows a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. If a grievance is against the Facility Administrator, it is sent to the Chief Advocate. The facility's procedure requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. The facility has policy that requires that a decision on the merits of any grievance or portion of a grievance alleging sexual abuse be made within 90 days of the filing of the grievance. The facility notifies the resident in writing when the agency files for an extension, including notice of the date by which a decision will be made. If the resident does not get a response in the time allotted at any level of the administrative process, the resident can consider the absence of response a denial at that level. The facility policy permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. Policy requires that if the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident's decision to decline. Policy allows legal guardians of residents to file a grievance, including appeals, on behalf of such resident, regardless of whether or not the resident agrees to having the grievance filed on their behalf. The Chief Advocate will respond to an appeal within 10 days. The agency has a policy for filing an emergency grievance (called a "Priority Grievance") alleging that a resident is subject to a substantial risk of imminent sexual abuse. These emergency grievances require an initial response within 48 hours and that a final agency decision be issued within 5 days. Interviews conducted, and documentation received, indicate there has been one

grievance alleging sexual abuse or harassment that was filed in the past 12 months. The agency has a policy that limits its ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith. Residents know how to file grievances and are provided grievance boxes. If residents are in isolation, the Facility Administrator, or designee, meets with them daily to discuss and receive any grievance information. The grievance box is checked at least one time per week, regardless, with no exceptions. There is backup if someone is on leave. However, priority grievances are not to be placed in the grievance box. The emergency grievance policy is discussed individually with all staff and youth, so they know not to place emergency grievances in the grievance box. Additionally, emergency response information regarding sexual abuse is provided in writing to youth and staff and is prominently posted. The policy has been reviewed and tremendous efforts have been made to assure emergency grievances are given directly to a grievance clerk and not placed in the grievance box, so they can be acted on immediately. Interviews suggest these policies are understood and followed.

The facility has a policy that residents who allege to have suffered sexual abuse may only be placed in isolation as a last resort. The facility policy requires that residents who are placed in isolation, because they allege to have suffered sexual abuse, have access to legally required educational programming, special education services, and daily large-muscle exercise. In the past 12 months no residents have alleged abuse, so none have been placed in isolation or segregated for their protection. (The only allegations have been for harassment.) The auditor interviewed residents who stated they had been previously isolated in the "time-out" area, due to their own behavioral issues. Although they were placed there for behavioral issues and had not alleged sexual abuse, they assured the auditor that any resident that is isolated can get basic care and services, and have their rights, although when they are in trouble, they do not get their privileges.

Alabama DYS has a policy related to criminal and administrative agency investigations. The agency does not terminate an investigation solely because the source of the allegation recants the allegation. Substantiated allegations of conduct that appear to be criminal are referred for prosecution. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual

abuse or sexual harassment for as long as the alleged abuser is incarcerated or employed by the agency, plus five years. When the quality of evidence appears to support criminal prosecution, the investigative agency will conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. The credibility of an alleged victim, suspect, or witness will be assessed on an individual basis and not be determined by the person's status as resident or staff. No polygraphs are required. Administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse. Investigations will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. The agency will retain all written reports for as long as the alleged abuser is incarcerated or employed by the agency, plus five years, unless the abuse was committed by a juvenile resident and applicable law requires a shorter period of retention. The departure of the alleged abuser or victim from the employment or control of the facility or agency will not provide a basis for terminating an investigation. When outside agencies investigate sexual abuse, the facility will cooperate with outside investigators and will endeavor to remain informed about the progress of the investigation. With the assistance of AYS General Counsel Dudley Perry, Jr., and PREA Coordinator Bobby Latham, the auditor reviewed the investigations completed in the past 12 months to verify compliance with this standard.

The agency has a policy requiring that any resident who makes an allegation that he or she suffered sexual abuse in the facility is notified as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation, and that the notification is documented. The facility will request the relevant information from any outside investigative entity, in order to inform the resident as required. Following a resident's allegation that a staff member has committed sexual abuse against the resident, the facility subsequently informs the resident (unless the agency/facility has determined that the allegation is unfounded) whenever the staff member is no longer posted within the resident's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. #### Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Staff is subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies, and this is made clear in the application and interview process, as well as new employee training. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. Interviews conducted during the onsite visit with administration, as well as with staff at different levels, provided no reason for the auditor to doubt that these policies are strictly enforced, even though there have been no reported incidents in the past 12 months.

Agency policy requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Agency policy requires that any contractor or volunteer who engages in sexual abuse be prohibited from contact with residents. In the past 12 months, no contractors or volunteers have been reported to law enforcement agencies and relevant licensing bodies for engaging in sexual abuse of residents. The facility takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

 Yes  No

#### 115.378 (b)

- Are disciplinary sanctions commensurate with the nature and circumstances of the abuse committed, the resident's disciplinary history, and the sanctions imposed for comparable offenses by other residents with similar histories?  Yes  No
- In the event a disciplinary sanction results in the isolation of a resident, does the agency ensure the resident is not denied daily large-muscle exercise?  Yes  No
- In the event a disciplinary sanction results in the isolation of a resident, does the agency ensure the resident is not denied access to any legally required educational programming or special education services?  Yes  No
- In the event a disciplinary sanction results in the isolation of a resident, does the agency ensure the resident receives daily visits from a medical or mental health care clinician?  Yes  No
- In the event a disciplinary sanction results in the isolation of a resident, does the resident also have access to other programs and work opportunities to the extent possible?  Yes  No

### 115.378 (c)

### 115.378 (d)

### Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

### Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Policy review and interviews indicate: Residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process, following an administrative or criminal finding that the resident engaged in resident-on-resident sexual abuse. In the past 12 months there have been no findings of resident-on-resident sexual abuse at the facility. In the event a disciplinary sanction for resident-on-resident sexual abuse results in the isolation of a resident, residents in isolation receive daily visits from a medical or mental health care clinician, as well as access to programming, to the extent possible. The facility offers limited therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse, and it considers whether to require the offending resident to participate in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives. Access to general programming or education is not conditional on participation in such interventions. The agency disciplines residents for sexual contact with staff only upon finding that the staff member did not consent to such contact. The agency prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. The agency prohibits all sexual activity between residents and disciplines residents for such activity, but deems such activity to constitute sexual abuse only if it determines that the activity is coerced.

Residents at Vacca Campus who have disclosed any prior sexual victimization during a screening pursuant to §115.341 are offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening, but probably much sooner. In the past 12 months all residents who disclosed prior victimization during screening were offered a follow up meeting with a medical or mental health practitioner. Medical and mental health staff maintain secondary materials documenting compliance with the above required services. All residents who have previously perpetrated sexual abuse, as indicated during the screening pursuant to § 115.341, are offered a follow-up meeting with a mental health practitioner ASAP as well. Information related to sexual victimization or abusiveness that occurred in an institutional setting is strictly limited to medical and mental health practitioners and other staff, and its use is strictly limited to informing security and management decisions, including treatment plans, housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local law. Medical and mental health practitioners obtain informed consent from residents before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the resident is under the age of 18.

Resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. There was no hesitation on the part of any staff asked these questions,

including those who provide medical and mental health care. Also, the residents answered questions in such a way to show they believe they will be cared for should something happen to them. Also, facility policies spell this out. The nature and scope of such services are to be determined by medical and mental health practitioners according to their professional judgment. Medical and mental health staff document the timeliness of emergency medical treatment and crisis intervention services provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning sexually transmitted infection prophylaxis. Treatment services are provided to the victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

According to policy, Vacca Campus conducts a sexual abuse incident review at the conclusion of every sexual abuse criminal or administrative investigation, unless the allegation has been determined to be unfounded. In the past 12 months, there have been no criminal and/or administrative investigations of alleged sexual abuse completed at the facility, so no incident reviews were required. However, there were investigations for sexual harassment, and the facility conducted an incident review to see what they could learn from those investigations. Regarding a review following an allegation of abuse, the facility will conduct a sexual abuse incident review within 30 days of the conclusion of the criminal or administrative sexual abuse investigation. The sexual abuse incident review team will include upper-level management officials and allow for input from line supervisors, investigators, and medical or mental health practitioners. The facility will prepare a report of its findings from sexual abuse incident reviews, including but not necessarily limited to determinations made pursuant to paragraphs (d)(1)-(d)(5) of this section, and any recommendations for improvement; and it will submit such a report to the facility head and PREA compliance manager. Administrator Toney and PREA Coordinator Latham assured the auditor that the facility will implement the recommendations for improvement or document its reasons for not doing so.

## Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Data collected and aggregated pursuant to §115.387 is reviewed in order to improve the effectiveness of sexual abuse prevention, detection, and response by identifying problem areas; taking corrective actions; and preparing an annual report. The annual report includes a comparison of the current year's data and corrective actions with those from prior years and provides an assessment of the agency's progress. The agency makes its annual report readily available to the public. The annual reports are approved by the agency head after redactions are made, which are limited to specific materials where publication would present a clear and specific threat to the safety and security of the facility. The auditor reviewed the Alabama DYS 2017 Annual Report, which includes information about Vacca Campus. The report can be found at:
